Certification of Compliance of Detex Products to the Buy American Act

For more than a decade, Detex Corporation has been designing, manufacturing and assembling virtually all our end products, and many of our component parts and assemblies, in New Braunfels, Texas, USA. During that time we have globally sourced the manufacturing of the components used in our end products, and many have been sourced domestically.

The following Detex end products comply with the Buy American Act because they are all manufactured, assembled and/or significantly transformed at our facility in Texas:

- Advantex Exit Devices, Electrified Options and Trims
- Value Series Exit Devices, Electrified Options and Trims
- AO19 and M2000 Automatic Operators and Peripheral Devices
- Mullions
- ECL-230 and ECL-600 Product Families and Accessories
- EAX Product Family and Accessories
- Mag Switches
- RediKey
- Power Supplies, Logic Controllers and Accessories
- Tailgate Detection Products
- DTX Access Control Products
- Mechanical Watchlocks and Sundry Products (Discontinued 2016)

The following Detex products comply with the Buy American Act because they are manufactured in countries that participate in the World Trade Organization Government Procurement Agreement (WTO GPA):

- GCS Guard Tour Verification Hardware, Software and Accessories
- Reliant Guard Tour Verification Hardware, Software and Accessories

The following product does not comply with the Buy American Act as it is made in the People's Republic of China:

- DDH-2250 Double Door Holder

Thank you for your interest in Detex products.

Ken Kuehler
General Manager
