Features and Benefits -

- ProxiPen's data points are RFID tags, which ProxiPen senses and reads automatically whenever they come into its reading range
- ProxiPen can read the RFID tags even if they are wet, frosty, dirty, greasy or painted over
- ProxiPen's RFID tags may be concealed behind wallpaper, sheetrock, plaster, paneling, mirrors or any other nonmetallic surface; this is a real plus in applications where aesthetics or vandalism are considerations
- ProxiPen is compact, lightweight and easy to use, with no external controls
- Correct data-point readings are confirmed by visible and audible signals
- ProxiPen's electronics are sealed in a tough polycarbonate housing, making the reader completely waterproof and shock-resistant
- ProxiPen delivers 50,000 data readings from one "AA" battery, which is can be changed by the user without tools or loss of data (stored in non-volatile memory)
- ProxiPen's anti-tampering features discourage unauthorized battery removal
- TopGuard Patrol software makes it easy to set up tours, download and evaluate collected data and prepare reports, which may be saved and/ or e-mailed in HTML or PDF format
- TopGuard Patrol is easily customized to accommodate any data collection application, including maintenance, service, cleaning, attendance and asset tracking. Control points, incidents, personnel, equipment, inventory or activities can be assigned to an RFID tag
