

AO19 SERIES®

AO19 Hardwired Touchless Activation Accessories

The hands-free operation of the touchless activation accessories make them ideal for ADA applications and locations where hygiene is important, such as operating rooms, clean rooms, and other healthcare facilities. The Touchless Activation Switch is not recommended for outdoor use.

NG-IR-A
NexGen Infrared Hardwired
Touchless Activation Switch

Benefits

- The touchless switch requires no touch to activate, ideal for ADA applications

Features

- Adjustable operating range from 5-12"
- Adjustable response/reaction time from 0-1.5 seconds
- NexGen switches are extremely thin and utilize no moving parts. The 4" faceplate is bordered by a clear bezel edge that illuminates upon activation
- NexGen technology using rapid infrared pulses, to ensure accurate detection
- ADA Compliant Hands-Free, Germ-Free Operation
