

TS2000 SERIES

Electronic Keypad Lever Trim

The TS2000 Series for selected Detex Advantex and Value Series Rim and SVR exit devices. It uses a patented motorized exit device trim with lever and keyed cylinder. 10 different keys are available to match. Programmed at the keypad using numerical commands to enable/disable codes, pass time, sounds, status indicator and lever functions. The TS2000 exit trim mounts directly to surface of door with through door wiring into a battery pack that is secured onto the secure side of the door. The electronics in the keypad are coated to provide dust/water resistance and meets IP65 rating. May be used in weatherized and non-weatherized environments.

Available on Advantex 10 Series, 40 Series, 50 Series, 51 Series, and Value Series V40, V50, and V51 only
